Creating your calendar

Use this form to order your calendars by post. Simply select 13 of your favourite photos or digital images saved as JPG files on a CD and we will reproduce them to create a distinctive and totally unique month-per-page calendar starting on the month of your choice.

We can accept colour and or black and white images, any size up to A4 (210mm x 297mm), but no transparencies or negatives please.

You can choose from three sizes: A4, A3 (double A4 which opens to A3) or A5 desk calendars.

If you create your calendar on our website you can add text captions for each photo and special dates. Unfortunately we are unable to add captions on orders received by post.

We always give you 4 identical calendars for the price of 3

Use a pencil to lightly mark the backs of your photographs with your postcode and the month you wish them to appear or if supplied on disk saved as the month name as JPG files.

Pack securely and return your photos/disk together with payment and your completed order form to the address below.
